<p>本人从参加工作以来，一直在高校从事教育科研生产工作。在科研工作中，首先以科学理论知识为基础，打好理论基础，多做实验。同时多去野外、建筑工程项目上实地调查实践，将理论知识运用到实践生产过程中，再从实践中积累经验教训，然后将科学理论和实践经验教训有机结合后反馈到高校的教学工作中。</p> <p>Since I joined the work, I have been engaged in the university education scientific research production work. In scientific research work, first of all, based on scientific theoretical knowledge, lay a good theoretical foundation, do more experiments. At the same time, more field work, construction projects on-the-spot investigation and practice, the application of theoretical knowledge to the practical production process, and then from the practice to accumulate experience and lessons, then the scientific theory and practical experience and lessons are fed back to the teaching work of colleges and universities.</p>
