

Brief CV

Name/中文姓名	Xuyali/徐亚利	Gender	female	
Title (Pro./Dr.)	Pro	Country	China	
University/Department	Hefei University /School of Urban Construction and Transportation			
Research Area	The constitutive relation of geotechnical materials and structure design			
<p>My name is Xu yali, I am professor in the HeFei university. I head the civil engineering staff room and geotechnical laboratory, which develop the constitutive relation of geotechnical materials and structure design. My research is focused on two areas - the constitutive relation of loess soil and pile-soil interaction. I received my PhD degree in Geotechnical Engineering from the civil engineering institute at the Xi'An University of Architecture and Technology. For my research and teaching I had received several honors including the excellent teaching Award (2017 and 2018), the Natural Science Fund of the University in Anhui Award (2013 and 2019).</p>
